

Scientific Evaluation Form of PhD Thesis

Kindly this form is to be completed by the evaluator and submitted to the post graduate committee of the Information Systems Engineering Department.

Students Name: - Rebwar Khalid Hamad

Thesis Title: - Social Algorithms for complex Engineering and science Problems

No.	Identification	Requirements	Max. Score	Evaluator Score
1.	Fitness of the Title	Does it reflect the content of the thesis?		
2.	Writing Skill and English language	The quality of presenting contents and the English Language.		
3.	Abstract	Does it capture the methodology and the main findings of the thesis?		
4.	Literature Review	Does it emphasize the findings of the recent researchers in the field?		
5.	Methodology (Experimental and Theoretical)	Are the proposed approach and actual works significant and appropriate?		
6.	Results and Discussion	Are they precise, brief?		
7.	Conclusions and recommendations for future works	Are they precise, and brief?		
8.	References	Are they listed according to Harvard Referencing Style? Do they represent the focus of international work in this field?		
Total Marks				
Average mark %100				

Note: Kindly, any further comments or suggestions to be added in a separate page.

Evaluator's Name, Signature and Date: Dr. Abbas M. Ali Mohamad

Academic title (position): Asst. Professor

Place of work: Salahaddin University – College of engineering – Software Engineering
