

Good afternoon.

This is a reminder for the following MSc thesis viva.

Student Name: Hangaw Qadir

Program: MSc in Computer Science

Title: Analyzing Biomedical signals with machine learning for diagnosing abnormalities in brain activities

Supervisor: Dr. Ibrahim Hamad

Date/Time/Venue: Monday 12th of September 2022/ 10:00AM/F11

Examination Panel;

1. Dr. Govand Kadir (chair)
2. Dr Rasber Rashid (Examiner)
3. Dr. Abbas Mohammad (Examiner)

Respected examiners, please find attached the assessment form.

The form consists of three tables.

- Tables 1(30%) and Table 2 (70%) assess the thesis. The overall grade is weight 60% of the final mark
- Table-3 as it is weight 40% and it assesses the Oral Examination.
- The overall mark will be the sum of the two above points.

Looking forward to seeing you

Dr. Govand S.Kadir
