Dear Abbas,

Thank you for confirming that you would like to be an Ambassador!

### **Ambassador Pack**

I have updated your account to show that you are now an EACR Ambassador and in the next couple of weeks, you will receive your Ambassador Pack in the post. In your pack, you will find several promotional materials to help you to raise awareness of the EACR and the value of membership among your network of contacts. *Please note that due to COVID-19 we will not be sending packs in the mail for the foreseeable future – only the digital pack is currently available.*

We now have a “digital ambassador pack” enabling you to download additional materials, for example, to send to colleagues by email. This is saved in a Dropbox folder: you should easily be able to open the folder and do not need to register for an account. Click [here](#) to access the digital pack.

### **Ambassador Points**

As a 'thank you', EACR Ambassadors can earn reward points towards a free registration at our conferences. More information regarding the points scheme can be found at [www.eacr.org/ambassadors/points](http://www.eacr.org/ambassadors/points).

### **Update your Member Profile**

I would suggest one of the first things you do is [log in](#) to your membership account and update your profile. You can add links to professional and social media, add a biography or brief profile, including a picture, tell us about your areas of expertise/interest. Please do check and ensure your details as listed in the Member Network – there is a Yes/No toggle for this when you edit 'My Profile & Privacy'.

As one of our EACR Ambassadors, I am looking forward to working together to raise awareness of the EACR and the value of membership and, most importantly, emphasising the need for a strong voice for cancer research, and cancer researchers, worldwide. Congratulations on the work that you and your colleagues have already done and in setting up the Kurdistan Organization for Scientific Research (KOSR).

Best wishes,

Andrew
