Dear Dr. Omar Aziz,

Thank you for completing the review of the paper #1570871988 ("Dynamic Response of Multistory Reinforced Concrete Buildings Having Different Ty") for 9th IEC-2023. Below is a copy of your review.

You can modify the report by going to <https://edas.info/R.php?r=11930050> up to the due date of Jan 15, 2023 03:59 America/New\_York.

Best regards,  
The conference chairs

> \*\*\* comments To authors: What are the major issues addressed in the paper? Do you consider them important? Comment on the degree of novelty, creativity and technical depth in the paper. Please provide detailed comments that will be helpful to the TPC for assessing the paper, as well as feedback to the authors.

1. I prefer the title to be revised to " Dynamic response of Multi-story Buildings with Different Types of Isolators"
2. In the abstract written this report aims..., did the author submitted article or report? actually its very close to the report.
3. Most of literature review papers not updated papers.
4. IBC2018 or 2015 available, while the author used UBC.
5. Structure of the paper is very poor, all the sections to be revised.
6. Explain the model of the finite element in detail.
7. Figures and tables not clear.

> \*\*\* Comments for TPC members only: Write any additional comments for TPC members only. Refrain from duplicating those in detailed comments. The authors will not see these comments.

Structure of the paper is very poor, methodology, analysis, results and discussion and conclusions to be revised.

> \*\*\* Originality of the submission: New or Novel contribution  
Weak Accept (6)

> \*\*\* Significance of Topic: Relating to knowledge contribution  
Accept (8)

> \*\*\* Paper Presentation: Clarity and Organisation of Content  
Borderline (5)

> \*\*\* (reviewer) expertise: Define your (reviewer) expertise on subject of the paper. This will only be seen by the Technical Program Committee.  
Average (4)

> \*\*\* Language: Clear the revision of paper language  
average (2)

> \*\*\* Recommendation and Review: Overall view and recommendation  
Borderline Accept (6)

> \*\*\* Strength Points: please write the strength point of the paper

Dynamic analysis of multi story buildings is an interest subject.

> \*\*\* Weakness Points: please write the weakness point in the paper

Structure of the paper, results and discussion, conclusions and references to be revised.
