Ref.: Ms. No. NOC-D-22-01298  
Rare-earth metals as effective getters for purification of germanium telluride glasses from oxygen impurities  
Journal of Non-Crystalline Solids

Dear Dr Mawlud,

Thank You for your review of this manuscript.

You can access your review comments and the decision letter (when available) by logging onto:

<https://www.editorialmanager.com/noc/>

Your username is: saman.mawlud@su.edu.krd

If you need to retrieve password details, please go to:

It is our intention to acknowledge the services of reviewers by publishing a list of reviewers periodically in the JNCS. Such publication would be in a group large enough to reduce the probability of an author identifying a specific reviewer but would still provide the opportunity for public acknowledgment of the reviewer's work. We will include your name in this list unless you request that it be omitted.

As a token of appreciation, we would like to provide you with a review recognition certificate on Elsevier Reviewer Hub ([reviewerhub.elsevier.com](http://reviewerhub.elsevier.com)). Through the Elsevier Reviewer Hub, you can also keep track of all your reviewing activities for this and other Elsevier journals on Editorial Manager.

If you have not yet activated your 30 day complimentary access to ScienceDirect and Scopus, you can still do so via the [Rewards] section of your profile in Reviewer Hub ([reviewerhub.elsevier.com](http://reviewerhub.elsevier.com)). You can always claim your 30-day access period later, however, please be aware that the access link will expire six months after you have accepted to review.

Kind regards,

Barrett G. Potter, PhD

Journal of Non-Crystalline Solids
