It is our intention to acknowledge the services of reviewers by publishing a list of reviewers periodically in the JNCS. Such publication would be in a group large enough to reduce the probability of an author identifying a specific reviewer but would still provide the opportunity for public acknowledgment of the reviewer's work. We will include your name in this list unless you request that it be omitted.

As a token of appreciation, we would like to provide you with a review recognition certificate on Elsevier Reviewer Hub (reviewerhub.elsevier.com). Through the Elsevier Reviewer Hub, you can also keep track of all your reviewing activities for this and other Elsevier journals on Editorial Manager.

If you have not yet activated your 30 day complimentary access to ScienceDirect and Scopus, you can still do so via the [Rewards] section of your profile in Reviewer Hub (reviewerhub.elsevier.com).

You can always claim your 30-day access period later, however, please be aware that the access link will expire six months after you have accepted to review.

Kind regards,

Lina Hu, Ph.D.
