Object: AESIM School 2024 – “Algebra, Number theory and their applications to Cryptography”, Erbil (Kurdistan Region-IRAQ)

Dear organizer,

The committee of AESIM Schools has reviewed your project of school in Erbil (Kurdistan Region-IRAQ) for 2024 and given a favorable opinion. We are pleased to inform you that CIMPA will cover your AESIM School for at most 7,000€.

I have attached one important document containing essential guidelines for the CIMPA reimbursement process. In particular, I would like to draw your attention to the fact that acceptance of CIMPA's financial support requires compliance with all CIMPA rules described in the document.

I wish you a pleasant AESIM School.

Sincerely,

Christophe Ritzenthaler
Director of the Centre International de Mathématiques Pures et Appliquées
