Dear professor,

We are very grateful that you wish to contribute to our Journal by offering your help with peer reviews. We will add your name to our database without delay.

Furthermore, regarding book reviews, we have an editorial policy favoring works published by Quebec publishing houses from the last three years. However, if y depth and relevant analysis, it could be accepted. It should therefore be submitted via the manuscript submission form in order to initiate the evaluation process. renewed confidence in the QJIL.

Best regards,
