Cover letter

Dear Professor

Please accept this letter as my application for the position of Lecturer at Salahaddin University- Erbil. My lifelong profession has been teaching, and I am eager to advance in the field. As a committed researcher with a love of learning and knowledge.

I have worked as an assistant lecturer at Department of Horticulture/College of Agricultural Engineering Sciences/Salahaddin University- Erbil for the past eight years, and I fear that if I stay in this position, I won't be able to advance in my career. I would like to develop professionally and specialize. I teach the following subjects: (Postharvest Technology of Horticultural Crops, Deciduous Fruits, Pome and Stone Fruits, Small Fruits, Principle of Fruit Production, Principles of Horticulture, Organic Agriculture, General Botany) In addition, I have a specialization in Fruit-Handling and Storage (Postharvest). I believe that if I am promoted to the position of lecturer that is the only way I can achieve my goals.

In this manner, my specialization will help me advance significantly. My ability to pay close attention to detail has always been strength of mine both as a learner and as a teacher. When reviewing lesson plans or working with my peers to set academic goals for the department, I feel it is my responsibility as a professional to ensure everything is done correctly and to the highest standard of excellence. Naturally, this professionalism also extends to the

classroom, where I work hard to instruct my students in a way that will help them understand the material so that they can do more than just pass a test. I appreciate you taking the time to review my application.

I'm hoping you'll be so kind as to grant my request for a promotion and support me more in the future. Education is a constant in life, and I make an effort to participate in it both as a learner and an educator. I also hope to continue using my skills as a member of your university.

Best regards.

January / 14 / 2023
