### Confirmation of attendance

This letter confirms that Dara K. Mohammad, PhD, has participated in the HERM Student and Postdoc (SAP) seminars at Karolinska Institutet. These seminars, each lasting one hour, are held weekly in the Neo research building at the Flemingsberg Campus. Specifically, between fall semester of 2023 and the spring semester of 2024 (up to and including 29<sup>th</sup> of May), Dara participated in a total of **10 (ten)** HERM SAP seminars.

The HERM SAP seminars are held every Wednesday in a hybrid format (on site and via ZOOM), continued with informal interactions. The series is organized and chaired by a working group consisting of PhD students and postdocs at HERM. On each occasion, two researcher trainees present their projects, and other trainees act as chairman and opponents. The HERM SAP seminar series is providing great opportunities for the trainees to receive feedback on their projects, meanwhile serving as an important platform for the junior researchers to interact and learn to give feedback to their peers.

Please don't hesitate to contact me in case of any questions.

Sincerely,

  
Nicole Marquardt, PhD
