- ✓ Excellent knowledge of Microsoft Office and excellent Internet research skills.
- ✓ Clear, confident communication skills.
- ✓ Good listener, responsible and passionate in what I am doing.
- ✓ Always aim to perform at the highest quality and strive for success when working alone or as a part of a team.

Organization Membership:

- ✓ ESOMAR (ESOMAR is the essential organization for encouraging, advancing and elevating market research worldwide (From 2012 – Till now);

https://www.esomar.org/community/our-community/member-search/profile681531_Delshad-Botani.php

- ✓ **KURDISTAN ECONOMIST SYNDICATE** in KRG (From 2010 – Till now). Conducting feasibility studies of many sectors, such as: industry, real estate, agriculture, Banking, Health care, Education, Oil and gas producers, etc. More than 70 feasibility studies conducted from 2011 till now.

Last Consultancy with International Organizations:

- ✓ **Team Leader/Surveys and Statistics Expert** for conducting a socio-economic study of basic needs in Bardarash district in the governorate of Duhok. DNO ASA/Iraq, an international oil and gas company, requested a socio-economic study in Bardarash district and the geographical coverage included 4 villages related to DNO Block (Banenan Block) in the Duhok governorate. The main purposes of this study for social development in Bardarash were twofold: the first was to provide DNO with a current overview of the demographic, social, and economic status in the villages to identify basic community needs and to define community attitudes and perceptions toward oil and gas companies; and the second was to present recommendations for future DNO plans for the improvement of socio-economic outcomes in the 4 villages related to Banenan Block.

Date of Consultancy: 9/2017 – 12/2017.

- ✓ **Monitoring and Evaluation (M&E) Officer** in Help – Hilfe zur Selbsthilfe e.V. Organization (German INGO) to implement of a short-term emergency Hygiene Kit distribution with one of Help's partner Organizations. The distribution sites were in the camps of Qayyahrah and Shirqat sub-districts (Jada'a Camps, Airstrip Camp, Dream City Camp, etc). The required tasks were as follows:

- a) Ensuring that data collection tools and methods are properly followed for the aids provided to the IDPs in the camps of Mosul Governorate.
- b) Actively participate in developing appropriate M&E tools and methods for data collection being in charge of monitoring data databases and tracking sheets, ensuring proper data entry and regular updates.
- c) Maintain the monitoring tools (hard and soft copies) filing.
- d) Perform M&E data compilation, storing and updating on a regular basis.
- e) Monitor indicator performance and contribute to the regular monitoring and performance reports.
- f) Establish a feedback and complain mechanism.
- g) Support effective community feedback mechanism, ensuring that complaints are logged and there is an appropriate follow-up system in place.

Date of Consultancy: 11/2016 – 1/2017.

- ✓ **Team Leader/Surveys and Statistics Expert** for conducting a socio-economic study of basic needs in three sub-districts of Zakho—Batifa, Darkar, and Rizgari—in the governorate of

Duhok. DNO ASA/Iraq, an international oil and gas company, requested a socio-economic study in Zakho district and the geographical coverage included most of the villages related to DNO Block (Tawke Block – Block 1) in the Duhok governorate.

Date of Consultancy: 6/2016 – 9/2016.

- ✓ **Team Leader/Surveys and Statistics Expert** for conducting a socio-economic study of basic needs in Chamanke and Atrush sub-districts of Duhok governorate. TAQA/Iraq, an international energy and water company, requested a socio-economic study and the main purposes of the socio-economic study was to provide TAQA with a current overview of the demographic, social, and economic status in Chamanke and Atrush sub-districts to identify basic socio-economic community needs and to define community attitudes and perceptions toward oil and gas companies. Also to present recommendations for future TAQA/Iraq programming for the improvement of socio-economic outcomes in the two sub-districts.

Date of Consultancy: 12/2015 – 2/2016.

- ✓ **National Program Coordinator and Data Analyst** for the whole project named School Mapping and Investment Planning supported by UNICEF Organization and Sustainable Research Development Center (SRD). Data have been collected from more than 20,000 elementary and basic schools to provide the evidence base to strengthen policy decision making to facilitate the implementation of development and support plans. Based on the findings of the Baseline Survey at governorate levels, plans will be put together for inputs and activities at governorate level in target schools to transform them into Child Friendly Schools (CFS).

Date of Consultancy: 10/2014 – 4/2015.

- ✓ **National specialist in Situational Analysis** of Basic Education System in KRG project under the auspices of the Regional Partnership for Culture and Development (RPCD) program in direct support to USAID Missions in the Middle East and North Africa (MENA) region. The purpose of the study was conducting a situation analysis to give USAID/Iraq an overview of the basic education system in KRG and consider the four essential elements of the right to education: availability, accessibility, acceptability and adaptability. The main responsibility were assist with formulation of Work Plan & Methodology, Train field surveyors, Manage field surveys, Assist during interim briefing & debrief to USAID, Data entry supervision, Data analysis (disaggregation of results), Assist with report writing (limited sections), Translate Executive Summary into Kurdish.

- 12.) Botani, Delshad Shakir Esmail, Wasfi Taher Saalih Kahwachi, Automatic Fingerprint Identification System using Robust Distance, Tanmeyat AL-Rafidain, Mosel University's Scientific Journal. Mosel. Iraq (2006).

Training Courses Achieved:

- 1) Monitoring and Evaluation (M&E) training course by an international trainer "Shauna Sexsmith" at Mselect academy in Erbil Governorate. The training course provided participants with a strong understanding in monitoring and evaluation program design and implementation (January 2018).

- 2) Violent Environment Preparedness Training (VEPT) by Strategic Edge International. The course provides up-to-date inputs, demonstrations, and exercises designed to put participants in stressful situations, thereby preparing them for worst-case scenarios. Simulations of real-life situations, such as roadblocks, abductions, weapons, mines and ambushes, complement essential classroom theory (January 2017).
- 3) Mobile Data Collection (MDC tools) by IMMAP Organization. The main objective of this course was to collect data through mobile devices using online sites in order to have better data collection and analyses, and mine awareness in the field (December 2016).
