Q1/ Fill the bla	ink in the following stater	nents with a pro	per word(s): (30 marks)
1- The		matter is used to	grinding.
•	Klovan (1972) classified and	_	
3- Wadells rule t	for rounding is		
	is based on		but Dunham
	types of vectorial sedin	·	
6- Draw palaeoc	current direction for trough	n cross-bed towar	ds 175
Q2/ Correct the the auxiliary ve marks)	e false statement(s): e rbs)	(Do not chan	ge underline words and (16
A- Rudistone in clastic rock (carbonate rocks is equivale	ent in size to cong	lomerate in
B- In modified I	Dunham scheme subdivisio	on of boundstone	is not existed. ()
C- Systematic r)	rock sampling <u>is</u> for those	places <u>has</u> thin	and uniform succession (
D- This histogra	am <u>represents</u> polymoda	al graphical pre	sentation n n n n n n n n n n n n n n n n n n

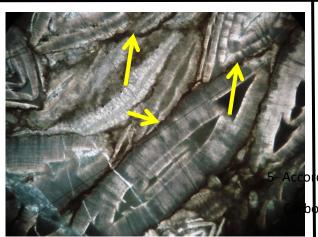

Q3/Answer the following:

According to Dunham classification for Carbonate rocks it classifies as

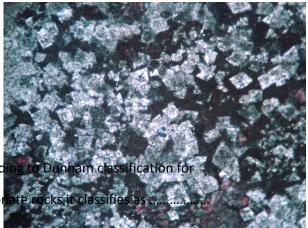

(12 marks)

According to Folk classification for carbonate rocks it classifies as

This diagenetic process (yellow arrow) in carbonate rock is

This diagenetic process in carbonate rock is

Q4/ Construct a pie diagram representing the following lithologies: -(12 Marks)

Limestone 30, Sandstone 18, Shale 15, Igneous rocks 12, and Siltstone 8

Q5/ (30 marks)

i. Draw a histogram, frequency curve and cumulative frequency curve for the following grain size analysis.

ii. Find all the statistical parameters (Mo, Md, Mz, δ , Sk, and KG).
