Basrah Journal of Science

Manuscript title: On some characteristic properties of nil-injective rings

Manuscript code: bjos-829

Manuscript field: Mathematics

Introduction		
Does the introduction provide sufficient background? information for readers not in the immediate field to understand the problem/hypotheses?	Yes	
Are the reasons for performing the study clearly defined?	Yes	
Are the study objectives clearly defined?	Yes	
Methods/Experimental		
Are the methods used appropriate to the aims of the study?	Yes	
Is sufficient information provided for a capable researcher to reproduce the experiments described?	There is no experiments.	
Are any additional experiments required to validate the results of those that were performed?	No	
Are there any additional experiments that would greatly improve the quality of this paper?	No	

Basrah Journal of Science

Are the results clearly explained and presented in an appropriate format? Do the figures and tables show essential data or are there any that could easily be summarized in the text? Are the figures and tables easy to interpret? Are the figures and tables easy to interpret? Are there any additional graphics that would add clarity to the text? Are all possible interpretations of the data considered or are there alternative hypotheses that are consistent with the available data? Are the conclusions of the study supported by appropriate evidence or are there the claims exaggerated? Literature cited The conclusions of the study are supported by appropriate evidence. Literature cited is balanced. The literature cited is balanced. The literature cited is balanced. There are no statements that are missing citations, or that have an insufficient number of citations, given the strength of the claim made. Review Decision Accepted Minor revision Major revision Rejected Reviewer information	Results and Discussion		
appropriate format? Do the figures and tables show essential data or are there any that could easily be summarized in the text? Are the figures and tables easy to interpret? Are there any additional graphics that would add clarity to the text? Are all possible interpretations of the data considered or are there alternative hypotheses that are consistent with the available data? Are the conclusions of the study supported by appropriate evidence or are there the claims exaggerated? Literature cited balanced or are there important studies not cited, or are other studies disproportionately cited? Please identify statements that are missing any citations or that have an insufficient number of citations, given the strength of the claim made.
