Dear Professor Abdallah:

Thank you for reviewing manuscript # 22-293-DR entitled "Network Pharmacology and Molecular Docking-Based Prediction of the Mechanism of Heye in Treating Atherosclerosis" for the Dose-Response.

In recognition of your continued support, Dose-Response and our publisher SAGE are pleased to offer you 60 days complimentary online access to all journals published by SAGE. Register at <http://journals.sagepub.com/page/help/reviewer-access> to activate access to content for all SAGE titles. To also benefit from a 25% discount on all SAGE books ordered online, go to the SAGE website (<http://www.sagepublications.com/>) and add the SAGE books that you would like to purchase to your shopping cart. When checking out, enter the Promotion Code GL10JR0001 when prompted. This will automatically deduct 25% from your final bill.

In recognition of your contribution to the journal as a reviewer, we would like to offer you a 20% discount on the article processing charge for the next article you submit to Dose-Response. Submit your paper within 6 months of receipt of this email, ensuring on submission that when you come to the section which asks "If you or any of your co-authors ... have reviewed an article for this journal in the last 6 months" that you select 'Reviewer'.

If your paper is accepted after peer review the 20% reviewer discount will be automatically applied once verified by SAGE. If you require any further information regarding this, please email openaccess@sagepub.co.uk.

We are collaborating with Publons to give you the recognition you deserve for your peer review contributions. If you opted in for recognition on Publons when you submitted this review, you will shortly receive an email inviting you to claim your review on the site. If you would like to get credit for your peer review but did not opt in and/or have not yet signed up, you can still do so by registering at <https://publons.com/home/>. Then simply forward this email to reviews@publons.com and the review will be added to your profile.

On behalf of the Editors of Dose-Response, we appreciate the voluntary contribution that each reviewer gives to the Journal. We thank you for your participation in the online review process and hope that we may call upon you again to review future manuscripts.

Sincerely,
Dr. Barbara Rattner
Editor in Chief, Dose-Response
