17. The Topics: (Subjects Covered)

Week

Apple and Pear diseases I	Week 1
Apple and Pear diseases II	Week 2
Stone fruit Diseases I	Week 3
Stone fruit Diseases II	Week 4
Citrus Diseases.	Week 5
Olive and Fig Diseases.	Week 6
Pomegranate and Walnut	Week 7

Vegetable Diseases : Tomato & Potato Diseases I	Week 8
Tomato & Potato Diseases II	Week 9
Cucurbit Diseases: Cucumber Diseases	Week 10
Watermelon Diseases	Week 11
Exam + Crucifer Diseases	Week 12
Legume Diseases	Week 13
Onions & Garlic Diseases	Week 14
Revision	Week 15
18. Practical Topics (If there is any)	
<ul style="list-style-type: none"> Identify of Symptoms and Signs of the diseases. Identify of the Pathogens which cause the diseases. Methods of how to control the diseases 	3 Hours labs
<p>19. Examinations:</p> <p>Define the following terms:</p> <p>Explain the following such as: Symptoms of the diseases</p> <p>Control of the diseases</p> <p>Mention the scientific name of the pathogen diseases</p> <p>Compare between</p> <p>Benefits of use: Copper sulphate</p> <p>Early sowing</p> <p>Draw life cycle of: fire blight of apple</p>	
Extra notes	
21. Peer review
