Notes to the author:

- 1) The title is like a report, not a research paper. The research problem must be clear in the title. So I suggest changing the title to: The role of sustainability in providing small Living Space
- 2) OR Sustainability as a means of small living space
- 3) Rephrasing the Abstract according to the context followed for writing the abstract in scientific research articles!
- 4) This research paper is more like a report than a research paper.
- 5) The research problem is not clear!
- 6) Please add a number of literatures to review and find out the research gap then the research problem!
- 7) Reorganize the figures according to the related texts!
- 8) The article has only four references which is not enough, please add some related references!
- 9) Please don't use "we, our" in the texts!
- 10) Keywords are only two and these are from the title!!!
- 11) Grammatical and punctuations errors, unclear and very long sentences!
