Notes to the author:

- 1) Why is the title of the research paper in the form of a question?
- 2) Rephrasing the Abstract according to the context followed for writing the abstract in scientific research articles!
- 3) This research paper is more like a report than a research paper.
- 4) The research problem, Methodology, and results are not clear!
- 5) Many overlapping topics such as: Smart Cities, Energy-Efficient Buildings, Smart Buildings, Internet of Things, and global growth in population and urbanization.
- 6) Keywords are only two and these are from the title!!!
- 7) Very bad referencing and poor Citations.
- 8) Grammatical and punctuations errors.
