

26th - 27th December 2020 | Maldives

Call For Paper " Mathematics" Special Message

Dr Ibrahim O. Hamad
Assistant (Associate) Professor in Mathematical Analysis
Department of Mathematics
College of Science
Salahaddin University\Erbil
Erbil (Hawler) - Kurdistan Region
Iraq

Greetings to all. It is our pleasure, at the request of the conference, to be one of the **International advisory board member** of "3rd International Conference on Recent Trends in Multi-Disciplinary Research (ICRTMDR-20)", 26th and 27th December 2020, Maldives, organized by Institute for Engineering Research and Publication(IFERP).

With great privilege and esteem I would like to Call for Papers on Mathematics and it related research ideas.

I believe that the consistency and logical structure of math make Mathematics to be the base of the foundation for building trust and brightness life. The importance of mathematics can never be undermined. I believe that mathematics is the language of the whole universe. Actually, it is a language of its own. The world will not be complete without mathematics because, without math, we would have no buildings, no roads, no electricity, no science, and no sports.

The cores of the conference gives opportunity to mathematics researchers to go through the road of all other science with math lamp, to paint a magic and wonderful portrait, whose foundation is the math and whose beauty is the science. From this standpoint, **I would like to invite mathematicians and others to participate at ICRTMDR conference.**
