## Cover letter

Dear Professor

I am writing to apply for the position of assist. Professor at Salahaddin University- Erbil. Teaching has been my lifelong career, and I am excited to reach new heights in the field of education. As a dedicated researcher with a passion for knowledge and learning.

I have been lecturer in Horticulture Department/Agricultural Engineering Sciences College / Salahaddin University – Erbil since the past 7 years now, and I feel like I’m not going to grow in my career if I stay on the same post. I want to achieve more in my career and be more specialized in it the subject that I teach is “(Deciduous fruit production 1+2, Evergreen fruit production, Principles of Horticulture, Organic Farming, Horticulture Seed Production and Adv. Nut Fruit Production)” and moreover I carry a specialization in my subject (Pomology) as well. The only way I think is best for me to reach my goals is only if I get promoted to as assist. Professor.

That way I’ll be able to teach post Graduate students and grow much more in my field of specialization. Both as an educator and learner, my attention to detail has always been one of my strong points. As a professional, I feel it is my duty to ensure everything I do is done correctly and to the highest degree of excellence, reviewing lesson plans or collaborating with my peers to establish academic goals for the department. Naturally, this professionalism extends to the classroom where I endeavor to teach my students in engaging manner focused on ensuring that they understand the material for more than just passing a test.

Thank you for your time and consideration of my application. I hope that you will be kind enough to approve my promotion request and help me more in my future. Education is a constant factor of life, and I endeavor to partake in it both as a learner and educator and hope to continue applying my skills as a part of your university.

Yours Truly,

April / 7 / 2023

Lecturer Dr. Jehad Shareef Kader
