

REVIEW CONFIRMATION CERTIFICATE

We are pleased to confirm that
Kamaran Wali Mahmood
has reviewed 1 paper for the following
EnPress journal in 2024:

Journal of Infrastructure, Policy and Development

ENPRESS PUBLISHING LLC.

30 April 2024

We are sincerely grateful to scholars who give their time to peer-review articles submitted to EnPress journals. Rigorous peer-review is the corner-stone of high quality academic publishing.

Journal of Infrastructure, Policy and Development

ISSN:
2572-7923 (Print)
2572-7931 (Online)
Journal abbreviation:
J. Infr. Policy. Dev.

The *Journal of Infrastructure, Policy and Development* (JIPD) is a multi-disciplinary, double-blind peer-reviewed journal dedicated to publishing high-quality articles on infrastructure, economic development, and public policy. The three words in the journal's title, "infrastructure", "development" and "policy" are core to the vision of this journal.

With its broad scope covering development-related issues, a novel feature of this journal is that it covers the whole range of infrastructure, including both "hard" infrastructure and "soft" infrastructure, where soft infrastructure is broadly defined to include education system, healthcare system, law enforcement, financial system, government system and other types of institutional arrangements.

JIPD has a target audience consisting of academic researchers, industry professional practitioners, and regulatory institution policymakers. It aims to provide a reliable platform for the transfer of knowledge and to facilitate discussions in the areas of development-related policy initiatives and infrastructure.

Relevant (but not limited to) topics to JIPD:

- o Education system
- o Healthcare system
- o Social system
- o Innovation of policy
- o Institutional reform
- o Physical infrastructure
- o Urban development
- o Green development
- o Climate-resilient infrastructure
- o Sustainable infrastructure
- o Infrastructure finance
- o Infrastructure governance

<p>Open Access Article Article ID: 5254 Abstract PDF</p> <p>Effect of payment for forest ecosystem services on forest conservation practices in Vietnam</p> <p>by Minh Duc Nguyen, Truong Lam Do, Thi Thanh Huyen Do, Nguyen Thanh Tran, Diep Do Thi, Nguyen To-The <i>J. Infr. Policy. Dev.</i> 2024, 8(5); 1635 Views doi: 10.24294/jipd.v8i5.5254</p> <p>Abstract Payment for forest ecosystem services (PFES) policy is a prevalent strategy designed to establish a marketplace where users compensate providers for forest ecosystem services. This research endeavours to scrutinise the impact of PFES on households' perceptions of forest values and their behaviour towards forest conservation, in conjunction with their socio-economic circumstances a... show more</p>
<p>Open Access Article Article ID: 2801 Abstract PDF</p> <p>Comparing data mining methods for predicting cost construction projects: A case study of cost management datasets from Thailand</p> <p>by Tanayut Chaitongrat, Kridtsada Janthachai, Wuttipong Kusunghum, Paranee Boonchai, M. Faisi Ikhwal, Mathinee Khotdee <i>J. Infr. Policy. Dev.</i> 2024, 8(5); 535 Views doi: 10.24294/jipd.v8i5.2801</p> <p>Abstract This research examines three data mining approaches employing cost management datasets from 391 Thai contractor companies to investigate the predictive modeling of construction project failure with nine parameters. Artificial neural networks, naive bayes, and decision trees with attribute selection are some of the algorithms that were explored. In comparison to artificial neur... show more</p>
<p>Open Access Article Article ID: 2852 Abstract PDF</p> <p>Ecological city concept: Challenge and future research agenda in urban ecology perspective</p> <p>by Enni Lindia Mayona, Ridwan Sutriadi <i>J. Infr. Policy. Dev.</i> 2024, 8(5); 370 Views doi: 10.24294/jipd.v8i5.2852</p> <p>Abstract Cities are no longer viewed as creatures with a linear-climax-established cycle but as ecosystems with dynamic and complicated processes, with people as the primary component. Thus, we must understand urban ecology's structure and function to create urban planning and appreciate the mechanisms, dynamics, and evolution that connect human and ecological processes. T... show more</p>
