Subject: Landscape Design

Course Book – 4th Stage / Spring Semester

Lecturer's name: Dr. Eng. Land. Arch. Kardo Nooruldeen Kareem

Academic Year: 2023/2024

11. Course objective:

UNDERGRADUATE LEARNING OBJECTIVES

These statements are made operational by skills and abilities common to the theory and practice of landscape design that our undergraduate students are expected to acquire:

- To communicate effectively in graphic, written, and verbal formats.
- To understand the relationship of the history and theory of landscape design and gardening.
- To acquire knowledge of the basic fundamentals of environmental design, particularly the implications of social and natural factors.
- To apply design principles in a range of sites and scales.
- Understand the Landscape as a built environment that interacts with aesthetical, social, ecological, and cultural aspects.

Additionally, it is our philosophy that our students be compelled to bring their creative talent to the public landscape. Further, we hope our students will self-actualize through their educational process while being grounded in theory, methods (including field), construction craft, and studio design.

12. Student's obligation

The obligation of the students in this academic course includes attendance in the lectures on time and listening teachers carefully, try as much as possible to read the material and teachers notes daily participate in class activities and prepare the assignments to gain the benefits from the course. However, preparation every week they will do quiz, homework and also encourage all students to participate by giving them questions and giving opportunity to all of them, attendance the exam by studying the materials, make a drawing about gardens and parks and present it for the other students at the class or homework.

13. Forms of teaching

The form of teaching is including use of white board mostly, However, Projector will be used to display my objectives by PowerPoint to present the lecture, and sometimes, give the lecture to the students by Microsoft word for each lecture. Moreover, the other primary materials drawing and the practical part there will be investigation presentations and also discussions that will encourage team work between the students in one hand, and interaction between the lecturer and students in another hand.

14. Assessment scheme

First exam after five lectures

Second exam after ten lectures

Mark distribution:

Monthly exam 50% (Theoretical 15% + Practical 35%).

Final exam 50%

Final mark 100%

15. Student learning outcome:

Demonstrate a fundamental understanding of the fundamental design methodologies in landscape design at appropriate scales: context, strategy and detail. After finishing this course students will be introduced to the importance of landscape design. They will be got information about gardening, parks, and ornamental plants, as well as history of gardening,

hard landscape, soft landscape drawing, sketch and scales. Understanding, interesting and enjoy in the term of landscape design.

17. The Topics:	Lecturer's name
Theoretical Part	Dr. Kardo N. Kareem
Introduction	2 hours
Importance Greenery in the City	14/1/2024
Glossary of Landscaping Terms	
History of Gardening	2 hours
Ancient Gardens	21/1/2024
Gardens in Classical Antiquity	
The Medieval Garden	
The Islamic Garden	2 hours
Renaissance Gardens	28/1/2024

Design and Drawing Steps Implementation of the Drawing and Cultivation of Various Plants Symbols and Elements of Visualization	2 hours 4/2/2024
Establishing or Creating Gardens and Parks	2 hours 11/2/2024
Principles of Landscape Design Unity- Symmetric- Balance- Proportion-Simplicity- Variety- Rhythm	2 hours 18/2/2024
First Examination	2 hours 25/2/2024
Design Components of Landscape Natural Components (Soft Landscape)	2 hours 3/3/2024
The Components of Gardens and Parks Design Natural Components (Soft Landscape)	2 hours 10/3/2024
Design Components of Landscape Artificial Components (Hard Landscape)	2 hours 17/3/2024
The Components of Gardens and Parks Design Artificial Components (Hard Landscape)	2 hours 31/3/2024
Maintenance of Parks and Gardens	2 hours 7/4/2024
Home Gardens Villa Gardens	2 hours 14/4/2024
Public Parks	2 hours 21/4/2024
Second Examination	2 hours 28/4/2024
Lighting in Landscape	2 hours 5/5/2024
Irrigation in Landscape	2 hours 12/5/2024
Children Garden & School Garden	2 hours 19/5/2024
Hospital Garden & Roof Garden	2 hours 26/5/2024
18. Practical Topics	Lecturer's name
Principles Engineering Drawing	3 hours
Practical Engineering Drawing	3 hours
How to Draw a circle within a (triangle, quadrangle, pentagon, hexagon, heptagon, octagon,.etc) inside.	

Steps of Home Garden Design	3 hours
Steps of Gardens & Parks Design	
Symbols and Elements of Landscape Design	
Small Yard Landscaping	3 hours
House and Garden Design	3 hours
First Examination	3 hours
Villa Garden Design	3 hours
Individual Criticism	3 hours
Types of Graphic	3 hours
Public Garden	3 hours
Individual Criticism	3 hours
Park Landscape Design	3 hours
Individual Criticism	3 hours
Second Examination	3 hours
Japanese Garden Design	3 hours
Ottoman Garden	3 hours
Persian Garden	3 hours
English Garden	3 hours
Rock Garden	3 hours

19. Examinations:

1. Compositional: In this type of exam the questions usually starts with Explain how, What are the reasons for...?, Why...?, How....?

Example :

What is the meaning of Hedges? Mention their types? With examples of scientific name?

2. True or false type of exams:

In this type of exam a short sentence about a specific subject will be provided, and then students will comment on the trueness or falseness of this particular sentence.

Examples :

Stones play an important and traditional role in Japanese garden.

True

3. Multiple choices:

In this type of exam there will be a number of phrases next or below a statement, students will match the correct phrase.

Examples :

The typical tree silhouette that has the characteristic of horizontally branching pattern is :-

A- round B-wide- oval C- weeping

20. Extra notes:

Here the lecturer shall write any note or comment that is not covered in this template and he/she wishes to enrich the course book with his/her valuable remarks.

21. Peer review:

This course book has to be reviewed and signed by a peer. The peer approves the contents of your course book by writing few sentences in this section.

(A peer is person who has enough knowledge about the subject you are teaching, he/she has to be a professor, assistant professor, a lecturer or an expert in the field of your subject)..
