Q/ What are the theories that explain financial crises, how many, and explain in detail the theory of matches?

Q: Definetion Both of:

The crisis, the exchange rate crisis, the banking crisis

Q: Fill in the following blanks:

The reasons that help spread the financial crisis are-----and-----and-----

20. Extra notes:

There are important notes that were not touched in this booklet, but they are

- 1. Insufficient time, that is, the number of teaching hours for this small article is not enough to give important topics and notes.
- 2. The lack of a way to help illustrate good physical examples.
- 3. Lack of information and data related to the causes of financial crises, whether they are directly or indirectly related to them, in order to conduct the financial aspect of them.

All these things may lead to the inability of the professor who gives full right to judgment and few students benefit from the topics that the essay is thematically closely related to the job market. I hope these provide more material for students to learn from.

ينداچوونهوهي هاوهڵ 21. Peer review

I checked these chairs see it's new to teach selected topics and very good for the existence of diversity in materials and teacher tried article that linked between threads and material needs of the student community and therefore nominee would be to teach and see What the benefit to the department Vocabulary and students as a way of teaching.
