

**Practical Plant Anatomy exam**

**8/12/2020**

**Q1- Identify the pointed part and write its scientific name.**

---

---

---

---

---

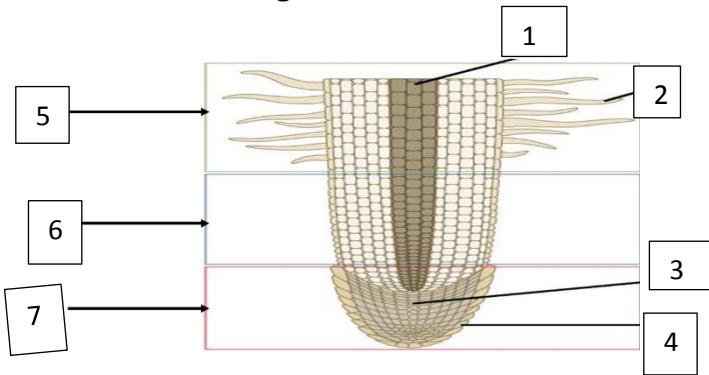

---

---

---

**B- Define the Secondary cell wall.**

**Q2/A-Label the diagram.**

---

---

---

---

---

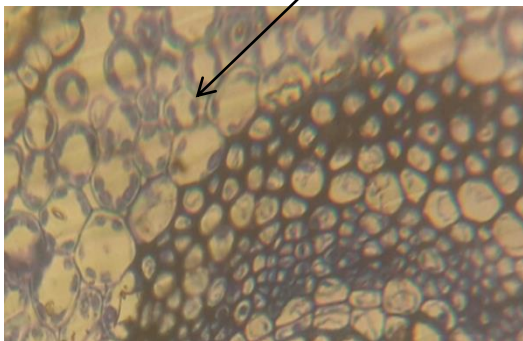

---

---

---

**B- What's the functions of vacuole in the plant cell?**

**Q3/A- Identify the pointed part and write its scientific name.**

---

---

---

---

---

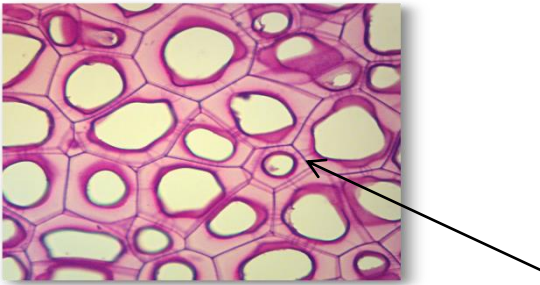

---

---

---

**B- Count the types of pits with an example for each one.**

Q4/A- Identify the pointed part and write its scientific name.

B-Define the Golgi apparatus.

---

---

---

---

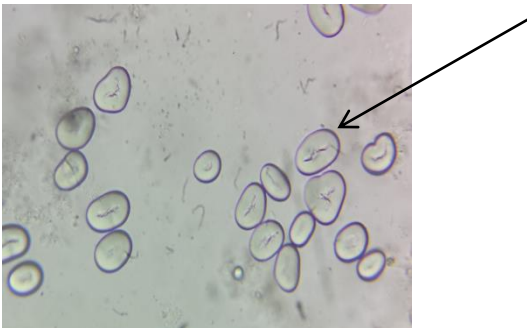

---

---

---

---

Q5/A- Identify the pointed part and write its scientific name.

B-Define the Lithocyte cell .

---

---

---

---

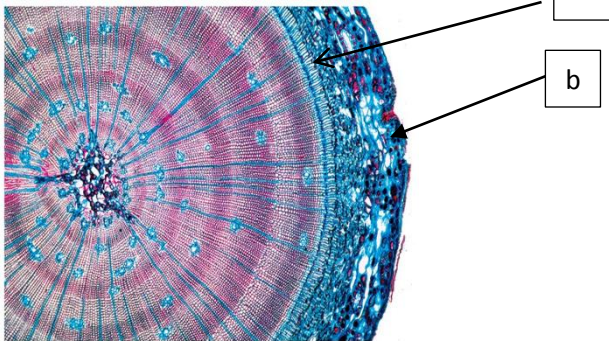

---

---

---

---

Q6/A- Identify the pointed part and write its scientific name.

B-Write the apical meristematic tissue layers in stem

---

---

---

---

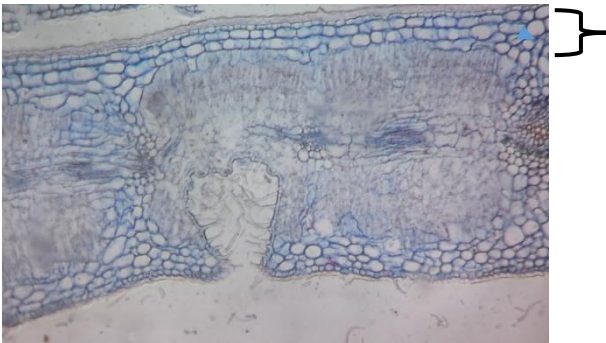

---

---

---

---

Q7/A- Identify the pointed part and write its scientific name.

B- Count the types of permanent tissues, with an example for each one.

---

---

---

---

---

---
