

Practical Plant Anatomy exam

17/11/2021

Q1- Identify the slide with the pointed part and write the scientific name of the plant.

B- Define the Secondary cell wall.

---

---

---

---

---

---

---

---

Q2/A-Label the diagram.

B- What's the functions of vacuole in the plant cell

---

---

---

---

---

---

---

---

Q3/A- Identify the slide with the pointed part and write the scientific name of the plant.

B- Count the types of pits with an example for each one.

---

---

---

---

---

---

---

---

Q4/A- Identify the slide with the pointed part and write the scientific name of the plant.

B-Define the Golgi apparatus.

---

---

---

---

---

---

---

---

Q5/A- Identify the slide with the pointed part and write the scientific name of the plant.

B-Define the Lithocyte cell .

---

---

---

---

---

---

---

---

Q6/A- Identify the slide with the pointed part and write the scientific name of the plant.

B-Write the apical meristematic tissue layers in stem

---

---

---

---

---

---

---

---

Q7/A- Identify the slide with the pointed part and write the scientific name of the

B- Count the types of permanent tissues, according to the type of cells.

---

---

---

---

---

---
