Dear Noura,

Hello and thank you for joining us for the first-ever ISF Virtual Congress, powered by Seed World. We were thrilled by the response from attendees, the great questions that were asked and the insight and perspective shared by our speakers.

It's my sincere hope that you not only enjoyed the experience, but also found this information to be of value. The conversation and dialogue that we started here does not stop now that the live component is over. If you missed one of the sessions, feel free to log back in and check it out. The sessions will be accessible through June 17. On behalf of the ISF Secretariat, I encourage you to continue participating and to look at how you might contribute so that we can *go forward together*.

We continuously strive to improve upon the work we are doing, and your feedback is important. Please take a quick minute or two to share a little about your experience and thoughts.

[SHARE MY EXPERIENCE](#)

Thank you,

Francine Sayoc
ISF Communications Manager
