Date:	Examination No.:	Version:2022-2023	Start:1/9/2022
Module Name - Code	Architectural Design 5 - 4120		
Module Language:	English		
Responsible:	L. Suzan Tahir Ismail		
Lecture (s):	L. Bniad Maroof Khaznadar, Assis. L. Karzan Abdulla Shafeah, Assis. L. Polla Dilshad Ibrahim, Assist. L. Vian Sabr Qadir , Assis. L. Awat Latif Qadir		
College:	College of Engineering – Salahaddin University-Erbil		
Duration:	15 week – 1 semester		
Course outcomes:	In this semester the student approaching the first step towards designing projects that contain complex space programs, such as sport complex. This semester teaches how to deal with the two main sides of architecture design which is function and form, considering them as two related aspects of design and how they effect on each other. Thus, students will understand more about large projects with complicated functions through number of spaces, structural systems, services and forms of the given project, in addition to more understanding to climate aspects to keep the design within sustainability approach.		
Course Content:	Site visit & similar project ,Site analysis, example projects - Integration between Common Users, Players, Referees &Audience circulations , Concept sketches-Design methodology concept, Concept criticism, Concept submission, Climate design issues ,Zoning plan, Criticizing process, , Prelim submission, Criticizing process, Pre-final submission, Criticizing process, and final submission		
Literature:	- Time saver standards for building types. - Time saver standards for architecture design data. - Neufert.		
Type of Teaching:	10 hrs. in lectures: 1 hrsTheory 9 hrs Studio Work		
Pre-requisites:	Architecture Design 4 (4114)		
Frequency:	Autumn Semester		
Requirements for credit points:	For the award of credit points, it is necessary to pass the module submissions and exams. It contains: The module has weekly works, assignments, prelim, pre final and final submissions for the required project. **Student's attendance is required in all classes**.		
Credit point:	**10**		

Grade Distribution:	The following grade system is used for the evaluation of the module exam: The module exam is based on the summation of two categories of evaluations: **First: (70%)** of the mark is based on the academic semester effort which includes - Daily works, Day sketches and concept **31 %** - Prelim Submission **16 %** - Pre-final Submission **23 %** **Second: (30%)** of the mark is based on final examination that is comprehensive for the whole of the project reviewed during the academic semester.
Work load:	The work load is 270 h. It is the result of 140 h. Attendance and 130 h. Self-Studies
