10. Course overview: The course aims at teaching students the construction of tenses in English and practicing them and learns the difference in time expression in each tense.	
11. Course objective: The goal of teaching the Grammar of 2nd year students is to develop their ability to recognize English tenses and when they are used. Also they will be able to analyse English sentences and be familiar to use modals properly. Students are supposed to be able to produce sentences correctly regarding tenses and the topics that will be covered in this academic year. This will be helpful not only in this subject but also in other subjects, in particular composition and comprehension.	
12. Student's obligation Regular attendance and daily preparation including doing the related exercises on their own besides doing further reading are basics to master the subject and use the material properly when needed.	
13. Forms of teaching: Lecture Method. Books and board and the use of slides if needed. Group work activities. The mentioned methods of teaching cannot be done without using projector and whiteboard. The instructor of this module uses PowerPoint slides to prepare all subjects for students and give them a copy of every subject to all students in order to read it by at least one day before coming to the class so as to have enough information about what they study before starting their classes.	
14. Assessment scheme Students are evaluated through written examinations, quizzes and activities. Monthly exam: 40% (Midterm exam, daily activities, presentations and quizzes). Final Exam: 60%.	

15. Student learning outcome:

They are supposed to use what they study in classes in writing composition, essay and daily communication well.
