IJC1970

A comparative wear study of LM 13 and ADC12 Al-alloy composite reinforced with SiC and ZrSiO₄ particles using two-step stir casting technique
International Journal of Cast Metals Research

Dear Dr jalal

Thank you for agreeing to review the above manuscript for International Journal of Cast Metals Research. We should be grateful if you could comment on its technical merit and suitability for publication. I would appreciate receiving your review by 23 Jul 2023. Please contact the editorial office if you will need longer to fully review the paper.

Please submit your comments online at <https://www.editorialmanager.com/ijc/l.asp?i=83934&l=IFFKHZCG>. To download the paper now as a PDF file, click the link: <https://www.editorialmanager.com/ijc/l.asp?i=83935&l=0K0ANFT0>: The PDF file contains links enabling you to download high resolution versions of the figures and the source file of the text, provided the author has supplied these.

If the links above are not working, please log in at <https://www.editorialmanager.com/ijc/> to view the paper and submit your report. Your login details are:

Reviewers may upload supporting files when they submit their comments e.g. an annotated version of the manuscript, corrected/suggested equations, or relevant image files.

Please provide a description before attaching any files. Each file is listed separately, and the ability to download and remove is available for each uploaded file. Files can be uploaded by clicking the button labelled 'Upload Reviewer Attachments'. When files have been uploaded, you must click on the button labelled 'Proceed with Recommendation'. If no files have been attached, click 'Ok' to proceed without adding a file, or press 'Cancel' to go back and attach one. Changes should be made using by entering text in a different colour or by using the Comment or Track Changes function in Word. (Note, however, that using Comment or Track Changes may compromise your anonymity.)

With kind regards

Hideyuki Yasuda, PhD
Editor
International Journal of Cast Metals Research
