**Letter of Recommendation**

**To\ Whom it may concern**

Dear Members of the Admission Committee,

I am pleased to get the chance to recommend **AMEZ MUHAMAD ABDALLA** for the Master position at Zhejiang Normal University. I will be delighted to witness her excelling in this particular field.

Amez has been very helpful in the microbiology lab; with her huge enthusiasm and passion for the subject, she has made the past year more enjoyable for me, personally. Volunteering her free time, she helped me during lab experiments for second year students. To offer help and to know how to ask for it are, I believe, important skills when working within the scientific community and specifically lab situations.

As her university records will attest, Ms. Amez's work is always of the highest caliber. I would say that her academic gifts, coupled with her ability to work in groups and to perform in a competitive environment make her the perfect candidate for a Master program. Amez has a down-to-earth nature and respects others while adhering to rules and regulations. Her independent or group work on research projects and studies has been immensely satisfying.

She is an analytical thinker and is stimulated by new academic challenges. This trait makes her strive for innovative solutions to real-world problems with a strong desire to improve the education sector in Kurdistan-Iraq. Amez has improved consistently every year and is a deserving candidate for an opportunity to work in the particular field. I would be delighted if my recommendation helps her obtain admission in Higher Education.

With Regards....

Sincerely,

**Lecturer: Sherko M. Abdul-Rahman**
