

Given True Dip

Two Apparent dip forming true dip

A): Determining Apparent dips of plane from True dip:

Exercise (1): Determine Apparent dips amount from True dip of the following planes:

No.	Attitude of plane	Apparent dip directions	Apparent dip amount
1	033/46	320, S79E	,
2	N90E/54N	82 , 279	,
3	S56W/38SE	202, S66E	,

B): Determining True dips of plane from Two apparent dip:

Exercise (2): Determine attitude of plane (true dip amount) from these apparent dip for the following

No.	Apparent dip (1)	Apparent dip(2)	Attitude of plane(True dip)
1	N49E/ 40	318/22	
2	057/32	S31E/19	
3	313/28	205/40
