

Determining the angle between two planes & the attitude of intersection line between two planes

A): Determining the angle between two plane

Angle between two planes

B): The attitude of intersection line between two planes

Intersection line between two planes

Exercise: Determine the angles and attitude of intersection lines between following planes:

No.	plane A	Plane B	Angle	Attitude of intersection line
1	S54W/58	257/49		
2	161/24 NE	025/28NW		
3	209/82	191/79SE		
4	050/36	275/44
