

Determining the axial plane attitude of the fold

Exercise: Determine the attitude of axial plane for the following folds:

No.	Limb 1	Limb 2	Folding angle(Φ)	Interlimb angle (i)	Att. of Hinge Line (fold axis) Beta axis(β)	Attitude of the Axial planes of the folds
1	060/ 34	227/48				
2	N77E/38NW	S35W/44SE				
3	043/46	243/16				
4	117/42NE	N75W/62SW
