Areas of Improvement	References	Recommendations
<p>Program overview</p> <p>1.1 Program title The title of the program is clear and reflects the program content</p>	<p>Page No 3</p>	<p>Strength: Diploma, Advanced Diploma and Bachelors are clearly described and documented, so that what is being mentioned is clearly identified.</p>
<p>1.2 Broad and narrow field title and code (OSCED - Oman Standard Classification for Education). The submitted documentation accurately identifies the OSCED broad and narrow field title and code for the program</p>	<p>Page No: 90-91</p>	<p>Strength: The courses were coded according to the alphanumeric coding lack of clarity of the sequence in the levels of the courses based on the academic content. Areas of improvement: Take into account the hierarchy on page 101 of OSCED. Recommendation: Each course should be given a unique identification number that begins with a code consisting of three letters instead of two letters (to represent the program to which the course belongs). So that the program code is followed by three numbers to indicate the level of the course based on the academic content.</p>
<p>1.3 Aims of the program</p> <p>1.3.1 The aims of the program are clear and achievable</p> <p>1.3.2 The aims of the program are aligned with the Institution’s Mission, Vision and Objective.</p>	<p>Page No 8-9</p>	<p>Strength: MU has a clearly defined vision, mission, and set of goals that establish a clear direction, purpose, and benchmarks for success. But it does not show evidence aligning organizational structure and programs directly to the stated mission and vision. Area of improvement and recommendation: MU should provide more depth and detail about their mission by concrete and measurable objectives to support their goals.</p>
<p>1.4 Rationale - local, regional and perhaps global needs The rationale of the program is clearly stated and it meets local, regional and eventually global needs.</p>	<p>Page No 16 – 18</p>	<p>Strength: MU shows a harmony with the national level (Oman) and the countries of the Gulf Cooperation Council. Areas for improvement: regional and global developments must be taken into consideration Recommendation: Accordingly, it needs to re-plan the program structure (diploma,</p>
