# Abstract Complete

Congratulations on the successful submission of your abstract. For your records, please print a copy of this page

Selecting the abstract submission type:

A **Regular Submission** refers to 1) any abstract submitted to one of the abstract topic categories listed here (http://experimentalbiology.org/2018/Abstracts/Late-Breaking-Abstract-Topic-Categories.aspx) and 2) all abstracts programmed during the EB meeting, whether the content is scientific or education and/or professional development-related, and

whether the abstract is volunteered or invited. Late-breaking abstracts will be published as part of the EB abstract volume of *The FASEB Journal*. \*The only exception to a regular abstract is an EB Science Outreach Activity Poster, see below for details.

**Abstract Information**

**\* EB Science Outreach Activity Poster**

refers to one that features a STEM-themed public engagement activity or program. These are non-scientific abstracts specifically devoted to promoting outreach activities.

EGR1 Interacts with Education and/or professional development related abstracts are "regular" abstracts and must be submitted to a topic category from the list above. Outreach activity abstracts will not be published as part of the EB abstract volume of *The FASEB Journal*. Abstracts of unrelated subject matter, submitted as an EB Outreach Activity Poster, will be rejected and not programmed. Programming decisions are final. Related questions should be directed to an individual society prior to submission.

**Date:** 2/23/2018

**Use Name:** Trefa Mohamad

**Abstract ID:** 8211

**Title:** EGR1 Interacts with Education and/or professional development related abstracts are "regular" abstracts and must be submitted to a topic category from the list above. Outreach activity abstracts will not be published as part of the EB abstract volume of *The FASEB Journal*. Abstracts of unrelated subject matter, submitted as an EB Outreach Activity Poster, will be rejected and not programmed. Programming decisions are final. Related questions should be directed to an individual society prior to submission.

**Topic Category:** Transduction and Cellular Regulation

**Payment Information** -  View

Receipt

**SUBMISSION QUESTIONS** regarding rules, sponsorship and topic categories should be directed to the Society to which the abstract is being submitted to (determined by the topic category selected).  
**Contact information**
