Q15. What is a shade in architecture?

Q16. What is shadow in architecture?

Q17. Why is shadow important in architecture?

Q18. What are casting shadows?

Q19. What is core shadows?

Q20. Why is it important to cast shadows?

Q21. What is needed to cast a shadow?

Q22. What are the 3 conditions for formation of shadow?

Q23. How do you make a shadow cast?

Q24. How do you add shadows to perspective drawings?

Q25. How do you draw a shadow effect?

Q26. Do shadows follow perspective?

Q27. How to draw stairs side view

Q28. How do you draw a one point perspective bookshelf?

Q29. How do you make a perspective table?

Q30. How do you draw a perspective wall?

Q31. How do you find the point perspective of a station?

Q32. What is station point also known as?

Q33. How do you find perspective projection?

Q34. What are types of perspective projection?

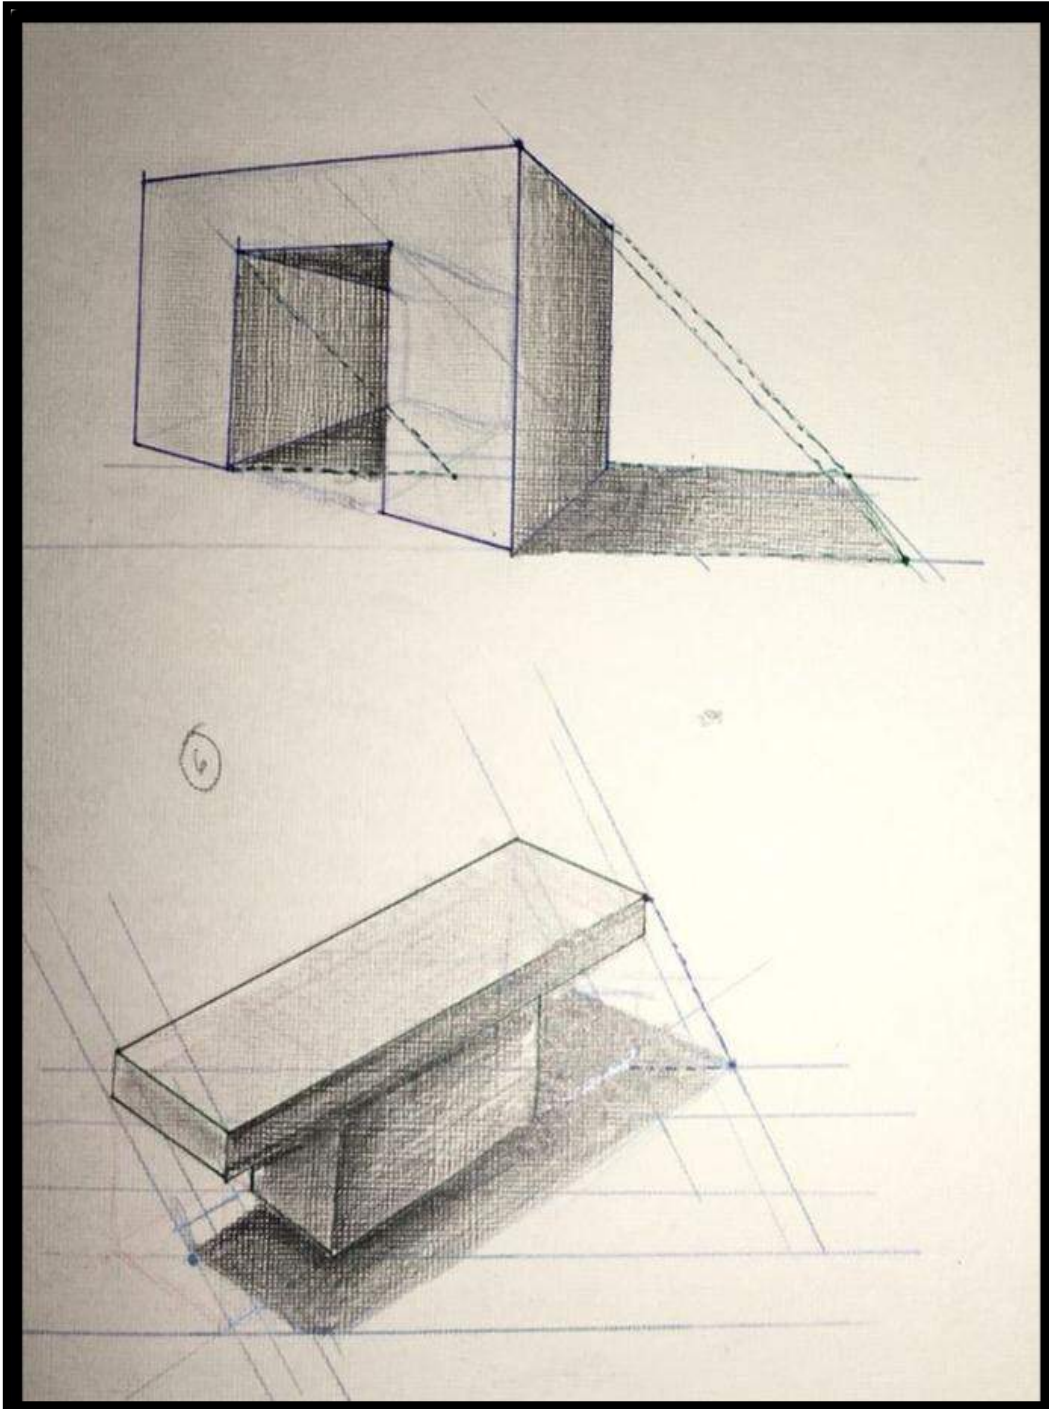

Q35. What is the difference between isometric and perspective?

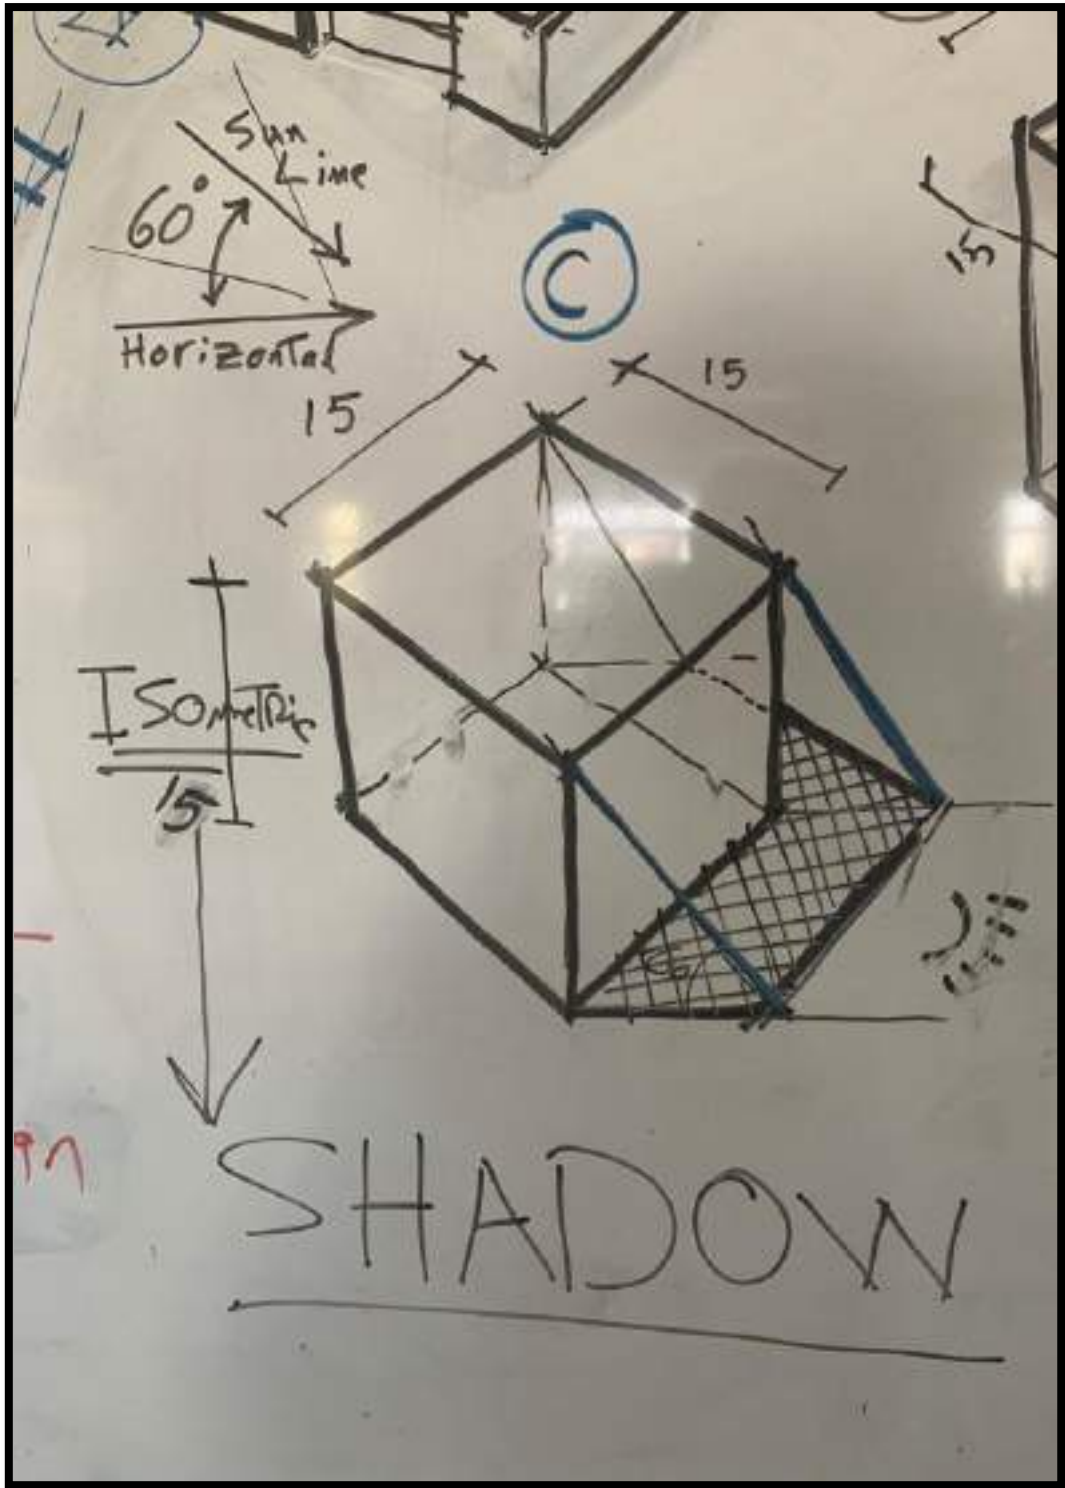

Q36. Why is an isometric view used?

Q37. How do you use isometric perspective?

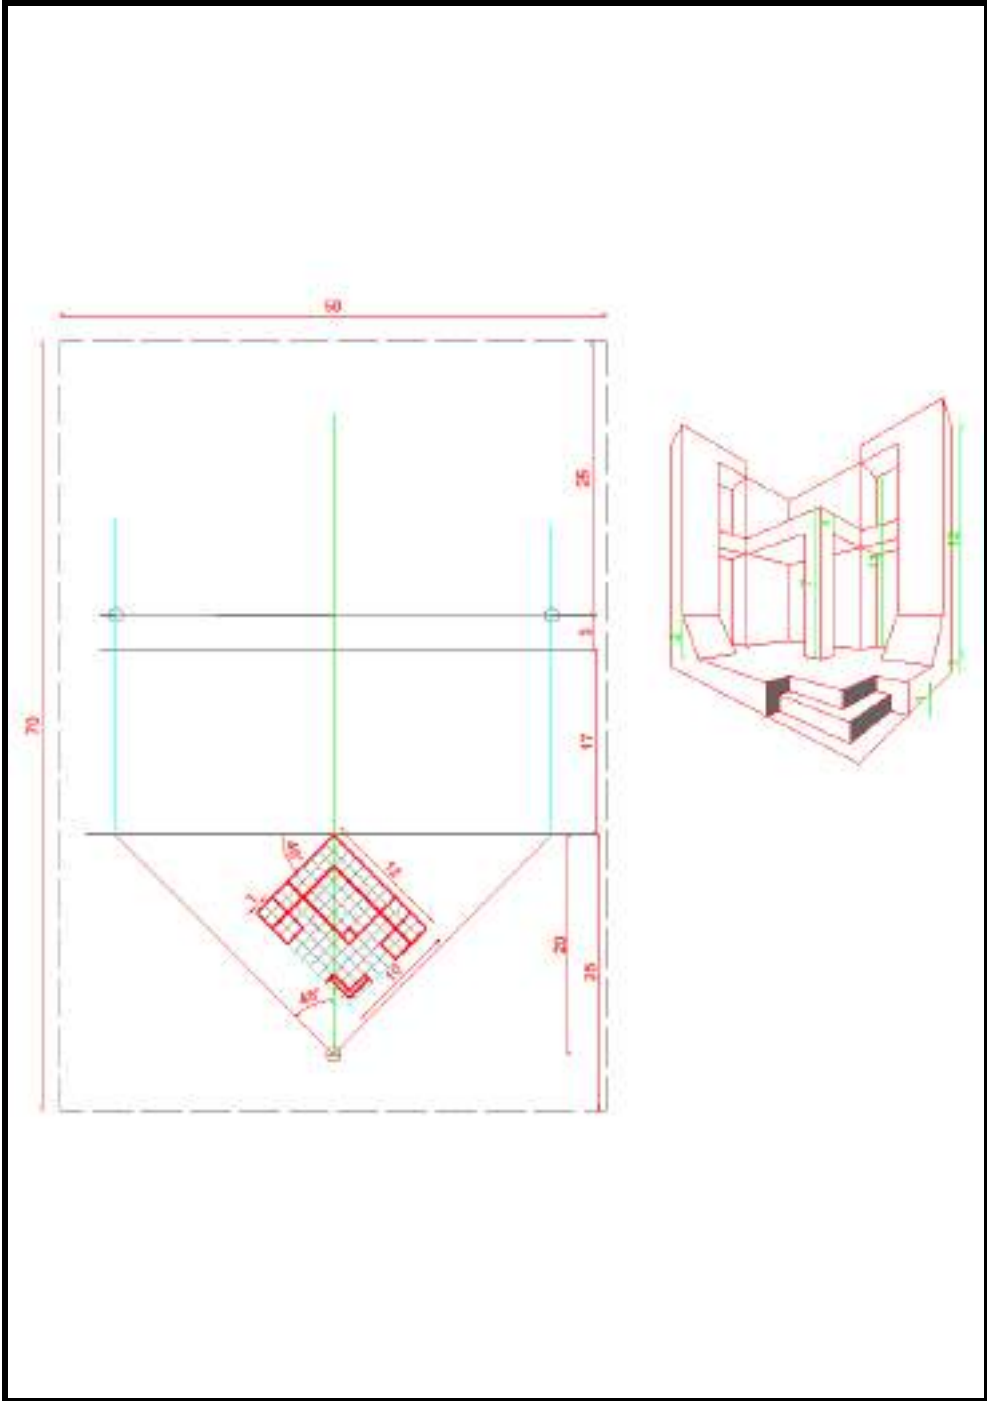

Q38. Who uses perspective?

Q39. What is an example of a linear perspective?
